## CIVIC ENGAGEMENT

**JUNE 10 & 11, 2022**  
**MARSEILLE**

Pandemic, war in Ukraine, climate change, antidemocratic forces and speeches: Europe is in trouble and its future is at stake. In the same time many people, especially youngsters, are deeply committed at local as well as at global levels to develop actions for the common good.

Therefore the Y.Civic event in Marseille, organised by Citizens Campus and its partners is aiming at:

- Sharing practices, ideas, fears, and hopes between European Youngsters
- Discovering civic engagement opportunities with local actors
- Discovering how the volunteer activity is a way for empowerment, soft-skills development and personal achievement
- Discussing and developing civic projects related to 3 main present hot topics

The activities carried out with young people may lead to debates on the European Union, resulting in the formulation of recommendations, conclusions and/or suggestions.

This event will bring together a hundred young people from 10 European countries to exchange, experiment and act for the common good.
